

ORDER FOR THE STATE TAX COMMISSION'S 1998 ASSESSOR'S MANUAL - VOLUME I

This form should be used to order your 1998 *Assessor's Manual*, Volume I This 1998 edition replaces all the pages of the 1991 manual. Volume I contains updated cost schedules for residential and agricultural structures. Many improvements have been made to the manual based on suggestions from users over the last 7 years.

State law (MCL 211.10e) requires that assessing officials use the official manuals prepared or approved by the State Tax Commission as a guide for preparing assessments. It is important that all assessing officers and equalization department staff have up-to-date assessor's manuals.

Since many of you bought this manual in 1991, you can save money by buying only the new pages without the binders and tabs. Indicate below how many of each type you will need, total the amount and enclose payment. While binders and tabs are available, quantities are limited. It is anticipated that orders will be filled during September of 1998.
